

Creational Pattern Assignment

Jasdeep Singh Bhalla

1207626364

Special instructions:

- Input files are present in the project structure.
- The relative path for input files is hardcoded in the program.
- So to test against other input files just replace the files with same name as already present.
- All the output files for graduate and undergraduate students in XML, CSV and HTML format are inside the project structure.

To run the program run mainClass.java
